

VIRTUAL MEETING

Design for Independence and Dignity Without Talking About It

What?

This presentation concentrates on the elements of Aging, Developmental and Cognitive issues that we should be taking into account as we continue to design spaces for humans varying degrees that will occupy these spaces:

1. Living in Place is for EVERYONE - not just elderly, disabled, handicapped, etc.
2. Universal Design and Aging in Place have been REJECTED by consumers and the trade!
3. Once you hear this session, you will learn how to get clients accepting of the items you've always known they should have, but rejected up until now.
