

# Lighting Controls as a Component of Interior Design

## What?

- Discuss lighting, as well as qualities of lighting that play an important role in design and function.
- Examine lighting controls, technologies, and design options available.
- Describe how to specify and plan for the installation of lighting controls for single-room, multi-room, and whole house systems.
- Define how proper use of lighting controls can enhance efficiency and contribute to sustainability goals.

Trey Wilson, LS, has currently been involved in the lighting business for 15 years and is a certified lighting specialist through the American Lighting Association. Legrand North America is the largest division of Legrand – the global specialist in electrical and digital building infrastructures.
